

NORTHBOURNE VILLAGE URBAN TREESCAPE PLAN

We are committed to protecting the surrounding environment and maintaining the green spaces that make Lyneham unique.

As part of the diversion of stormwater and sewer infrastructure, some street trees will be impacted and removed.

The impacted trees will be replaced with advanced tree stock that will be nurtured to maturity.

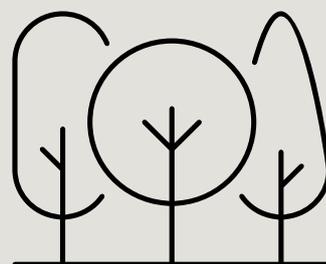

Our plan will ensure the look and feel of the urban landscape is retained for future generations.

ENLARGED MAP ON REVERSE. POSTER SIZED MAP ON DISPLAY AT OUR SITE ON DE BURGH STREET.

What we are doing:

- Removal of impacted trees;
- Planting 19 advanced native trees;
- Planting 15 advanced deciduous trees;
- Planting 104 high shrubs; and
- Planting 2,225 native low shrubs and groundcovers.
